

# THE DIAMOND TH 650

patent pending

Weight:  
16,500 pounds

Dimensions:  
L=12', W=8', H=8'6"

Class 1 Div 2 compliant

Redundant fluid transfer pumps

- ◆ Heats 120 barrels of diesel per hour (2.0 barrels per minute) to temperatures up to 200 °F
- ◆ Features hydraulic circuit for TEE pressure pump powered by Thermal Unit for smaller footprint
- ◆ Flameless heating ...no contact with corrosive or flammable exhaust gas/heating
